

K-Love is a radio station on the local FM frequency 91.7 here in Butte, Montana.

K-Love provides a positive listening experience for our family. It is the only station we listen to. I have a ten-year old daughter and I'm protective of what she is exposed to. I know with K-Love she hears positive and uplifting music and information without the vulgar commentary heard on other stations. She knows all the songs and would be extremely upset, as would we, if LPFM were to come in and we would lose our K-Love station.

Thank You for considering our request.
